WHY SHOP WITH US?

www.flagandbanner.com/why-buy-from-us.asp

Arkansas' Flag and Banner started in 1975 and has been earning your trust ever since. We are a multi-million dollar distributor, store, manufacturer and Internet retailer. In 2000 we officially began marketing as simply FlagandBanner.com.

We specialize in custom flags and banners, commercial flagpoles, and soft signage that accounts for much of our business-to-business sales. Our showroom is open to the public for local customers who want to browse our gift store for new and different ways to express their patriotism. Online shoppers can find a range of products for home and garden, patriotic decorations, jewelry, clothing, toys, dishes, gifts and more. The company slogan has become "More than just a flag store." When possible FlagandBanner.com attempts to buy Made in America products and prominently notes them both online and in store.

Since 1991 FlagandBanner.com's headquarters has been on the National Register of Historic Places. Housed in a 1916, 3-story, red brick building named the Taborian Hall, we are located at 800 West Ninth Street in downtown Little Rock, Arkansas. Production and large format printing, cutting, and sewing take place across the parking lot in our warehouse facility. Kerry McCoy, founder and president of FlagandBanner.com, personifies the American dream as she sells the most patriotic of America's symbols – Old Glory. She was honored by her industry this year when she was awarded the Betsy Ross Award for positive attention and visibility brought to the flag industry. This award is one of the highest honors in the flag industry.

At FlagandBanner.com YOU, the customer, really do come first. We would love the opportunity to work with you on your next flag or banner project.

Our motto is:

"Quality Product • Expert Service • Outrageous Support."

Kerry McCoy, owner and president of Arkansas' FlagandBanner.com was recently awarded the Betsy Ross Award from the National Independent Flag Dealers Association (NIFDA). This award is one of the highest honors in the flag industry. The purpose of the award is to recognize an active member in good standing with NIFDA who has gone above and beyond the call of duty to become a successful flag dealer and bring service, visibility and positive attention to the flag industry.

Other awards include:

- Blue Chip Enterprise Award
- (2 time) AR Business of the Year Finalist
- ADDY Bronze Award
- ADDY Outstanding Achievement Award
- 1st Place Commercial Sign Design Contest
- 3rd Place International Sign Contest
- Multiple honors from military units

Custom Logo Flags

www.flagandbanner.com/custom-flags.asp

We at FlagandBanner.com bring our customers years of experience creating custom made flags for advertising, events, decoration, branding logos, information, way-finding, identification and much more! Every custom flag is available in a wide variety of materials and can be produced in a number of processes. By adding gold fringe a flag can be dressed up for parade or indoor display. Listed in this catalog you will find some of our more popular custom flags and processes with a set up fee of only \$98.95 per order. As you will see, we still offer custom embroidered and appliquéd flags while many of our competitors are phasing out this beautiful artisan technique.

Appliquéd Flags

This is the oldest form of flag making. Each colored design and/or individual letter is hand cut and sewn on the front and back of the flag, much like quilting. It is an elegant process for small run orders and is often used when making large flags. Almost all American flags 6x10 feet and up have appliquéd stars. Vector artwork is required for this process. The Coca-Cola flag pictured here is an example of an appliquéd flag process.

Examples of digitally printed flags

Digitally Printed Flags

This 21st century flag-making technique uses 4-color process printing machines. These machines make custom flags more affordable and available in quantities of 1 to 1000's. Because of the digital imagery, the designs on the flags can be more complex.

The price includes canvas heading with grommets, reinforced fly end and reverse image on backside. Images require vector and/or raster artwork. Pricing is per flag. Call 1.800.445.0653 for large quantity pricing.

Qty.	2x3 FT.	3x5 FT.	4x6 FT.	5x8 FT.	6x10 FT.	8x12 FT.	10x15 FT.	12x18 FT.

Embroidered Flags

The crème de la crème in fine detail and presentation appeal. The design is created using thread looped and layered over and over to form a risen image on your flag. These handsome flags are often edged with gold fringe. The President of the United States and formal military ceremonies use this type of flag. Almost all American flags 5x8 feet and smaller have embroidered stars. There are size limitations on these flags. Images require vector and/or raster artwork, see our graphic art requirements at the bottom of page 2.

Note: This process is not recommended for an item that will be used outdoors.

Guidons

Guidons, sometimes called standards, are displayed and carried by all United States Armed Forces and other civil and service organizations. They are used to signify unit, squadron and/or corps affiliation. They are often given as gifts to commanding officers. See below for our digitally-printed pricing and specifications. Also available in appliqué.

All guidon pricing below is for 200-denier nylon material. Flags are finished with heading and grommets or pole sleeve. Set up for all styles is \$98.95.

Custom Banners

What makes a banner expert? Someone who has been doing it since 1975. Like all industries, the flag and banner industry has been through many changes over the last four decades. We have seen it all — the good, the bad and the ugly. So don't waste your time trying to figure it out; let us do that for you. Tell us your needs, your usage, your time frame and any other particulars, and let us tell you what would work for you. Things to consider before calling or emailing our experts: size, quantity, design, indoor or outdoor usage, how you would like to display it, and your time frame.

Horizontal A-Frame Banner Display

Grab their attention with an attractive Horizontal A-Frame Banner Display Kit. Constructed from sturdy aluminum to withstand the outdoors. The frame is lightweight and easy to use so you can take it anywhere - indoors or out!

Each A-Frame Includes:

- Bungee cords
- Ground stakes
- Soft carry case
- Two optional vinyl banners with grommets
- See size, assembly instructions and videos online www.flagandbanner.com/aframe.asp

Dye-Sublimated Banners

This is a favorite indoor banner. Your design is first printed onto paper, not the fabric, so your artwork looks crisp with clean edges. Then it is heat pressed onto the fabric. This transfers the dye from the paper to the fabric in a high-quality image, hence the name dye sublimation. Because the dye is not put directly on to the fabric but rather transferred, it gives you a much broader range of material options. You can dye-sub nylon, poplin, Dacron, polyduck, voile, satin and more. Yes satin, if you've got the money! Average price per sq. ft. is \$16.00 and quantity pricing is available.

Simple Appliqué Banners

Appliqué banners like those pictured right, are the creation of skilled artisans with access to a large stock of nylon fabric colors. We are one of the few companies still offering this process. Each design is hand cut and sewn on the front and back creating a mirror image on back. This elegant, quilting-like process is best for small-run orders on large banners. Due to the process, your design must be solid colors with simple graphics and/or fonts. Vector artwork is required. To read more about this process, see page 4 Appliqué Flags.

- **SIMPLE:** Simple design or up to 20 plain letters.
- **AVERAGE:** Moderately detailed design or up to 40 plain letters.
- **COMPLEX:** More detailed design and lettering. The equivalent of up to 60 plain letters.
- **DETAILED:** Multi-colored, more intricate design and lettering. The equivalent of up to 80 plain letters.

Fast & Affordable Vinyl Banners

Just exactly what the title says. Our fastest and most affordable option: a single-sided, durable, white vinyl banner, text only, with 5 grommets for hanging anywhere.

- 3 ft. x 6 ft. - \$125.00 per banner, no setup fee!
- 3 ft. x 8 ft. - \$148.00 per banner, no setup fee!

Appliqué detail

Custom banners come in all shapes, sizes and materials. From commercial-grade vinyl to delicate nylon and poplin, we can create a banner to fit your needs and budget. Have a creative idea that doesn't fit the standard rectangle? We can do it.

Gonfalon

The gonfalon is a type of heraldic banner that is often pointed or swallow-tailed. They can be suspended from a cross bar on a presentation pole, and are sometimes displayed with several streamers. Popular in universities and churches, they can be made of digitally-printed nylon or dye-sublimated poplin.

Contact the flag experts today at sales@flagandbanner.com or call 1.800.445.0653 to place your order.

Window Scrim

Your windows are free real estate for advertising, so don't waste your space! Get your message out with this amazing transparent window scrim material. A self-adhesive mesh adheres and removes easily from glass, allowing you to see out and for those outside to see your advertising. Your image is digitally-printed on one side, of course. Average price is \$15.00 per sq ft. Quantity pricing is available.

Mesh Banners

Mesh banners are commercial-grade vinyl banners but with tiny holes. If high winds or wind tunnels are an issue, or if you're spanning a large area, we highly recommend this option to decrease your likelihood of hardware and installation failure. Keep in mind banners are just big sails with graphics. No really, they catch and cup the wind, which is also how we move ships. Image is digitally printed on one side. Average price is \$16.00 a sq ft.

Custom Blade, Feather & Teardrop Banners / Flags

For thousands of years, the ancient tradition of flag waving and banner display has been used to identify, notify, celebrate and/or express yourself or group. (I SURRENDER!)

This last decade has brought an onslaught of advertising options to convey your message. There are blade (wave) banners, feather banners and teardrop banners, all named for their shapes.

Some reasons for their popularity are:

- Ease of transport for outdoor display (i.e. sporting events, sales events)
- Compact parts and carrying case (sold separately) for easy storage
- Variety of base options for indoor or outdoor display
- One of the ground spike bases allow banner(s) to rotate for 360-degree viewing
- Quantity pricing available
- Made in the USA

Banners include pole and mounting hardware. Base not included. Visit www.flagandbanner.com/ad-bases.asp for options.

Custom Street Pole Banners

www.flagandbanner.com/custom-sp-banners.asp

Custom street pole banners (aka light pole banners) are popular for a reason; they are pretty, like pieces of art in the sky! And if you are not an art lover, they are also very functional and informative. So consider street pole banners when putting together your advertising budget. If you want to give your town, shopping center or school a face lift, banners are an affordable option. The pictures on this page are just a few of the custom street pole banners we have made. Ask our experts about different shapes, sizes and materials. Provide us with your artwork or we can design something for you.

Street Pole Brackets & Arms

Because of varying winds speeds, we offer a wide range of street pole banner hardware. The higher the wind-load needed, the higher the price, of course! If any part fails, replacement parts are available for all our systems. Here are a few things to consider: 1) Do you want one or two banners per pole? 2) What size is the banner you're displaying? (The bigger the banner, the stronger the hardware needs to be.) 3) Is the hardware for temporary or permanent usage? We recommend anchoring the bottom of your banner to reduce flapping

Table Throws & Runners

www.flagandbanner.com/custom-throws.asp

Get your name and logo front and center at your trade show or event with a wrinkle-resistant table throw from FlagandBanner.com. Our tablecloths come in 3 styles. Based on your logo, we can help you choose the right imprinting technique. See page 8 for information about dye sublimation on poplin fabric, or take a look at appliqué technique on nylon on pages 4 and 9.

Before requesting a quote, consider the styles below and decide whether you want your tablecloth to fit a 6 or 8-foot table.

Throw

Semi-fitted throw

Runner with solid throw

Table Throws

They are just what they say. Throw this tablecloth over any table and achieve 360-degree viewing. You can put your logo on the front, back, sides and/or top. Graphics on the top section require extra consideration. For example, your logo and contact information may need to be centered so that you can display literature at each end of the table.

Most people prefer their logo on the front only, but still use this all-around coverage so they can store things under the table. This style is the most versatile of the table cloths.

Semi-Fitted Table Throws

For a more tailored look, choose our semi-fitted table cloth. This style is just like the table throw described above but with a little extra fitting. The corners are open so the table cloth hangs better, has a nicer fit and does not drag on the floor. If you are working in an environment with dirty floors, this could be an option for you.

Table Runners

If your budget is limited, consider this economical option. Use table runners over any standard table cloth. Just drape it across the middle and presto – your logo anywhere, anytime. Because of its smaller size, the dye-sublimated polyester runner fits easily into any suitcase.

Solid Table Throws

Solid table throws are perfect to use with our economical custom runners featured above. Check out our solid-colored tablecloths at www.flagandbanner.com/table_throws.asp and make your own display.

Trade Show & Retail Displays

www.flagandbanner.com/trade-show.asp

Great for all types of applications plus made in the USA! Anchor banners and flags the easy way with our reusable banner clips. These easy-to-use clips eliminate the need for grommets. The heavier the load, the tighter the grip.

Be cool and get noticed with a 10x10 foot custom tent made just for you. Add your lettering and/or logo on up to 8 places (4 peaks and 4 valences).

For instance, you can put your logo on the peaks and your organization name on the valences. You can choose from full or half-back walls and sides. Our tents are customized right here in the U.S.A. for a faster turnaround time.

All tents are made of flame-retardant, weather-resistant, UV-protected, 400-denier polyester. To match your budget, you can choose between the standard (1-year warranty) or heavy gauge (2-year warranty) steel frame.

A carrying case with wheels, stake kit and instructions comes standard with all event tent kits.

Dye-sublimation is used for a full graphic tent while thermal imprints are used to apply your graphics to the places of your choosing.

Custom Pennants

www.flagandbanner.com/custom-pennants.asp

Think outside of the box and call attention to your store or event with custom pennants from FlagandBanner.com. Use them indoors or outdoors because they are made from polypropylene and vinyl. Standard lengths are 30 or 60 feet of sag-resistant rope. Standard triangular pennants are 12x18 inches while the standard rectangular pennants are 9x12 inches, oriented horizontally, and there are about 6 inches between each pennant. But hey, they're your custom pennants, and if you have different specifications - our experts can help.

Before you call, consider these questions:

- How long do you want your strings?
- Do you want 12x18 inch triangular or 9x12 inch rectangular pennants?
- Do you want single or double-sided graphics?
- How many strings do you need?

Team Spirit Flags

www.flagandbanner.com/team-spirit-flags.asp

WE'VE GOT SPIRIT
YES WE DO
WE GOT SPIRIT...
HOW ABOUT YOU?!

You know what they say? If you've got a great idea... RUN WITH IT! Get your fans fired up with a spirit flag from FlagandBanner.com. I know we get fired up when we see one of our flags on TV, so let us make one for you. We will put your team colors, mascot or slogan on a big spirit flag made of nylon for the lightest weight. Some popular sizes are 8x12 ft. and 10x15 ft. A pole sleeve can be sewn into one side for running down field or both sides for cheerleaders to snap up dramatically during a certain cheer. For your pole and hardware, we recommend lightweight 1-1/4 inch PVC pipe from your local hardware store.

We also offer fundraising opportunities visit www.flagandbanner.com/fundraising.asp

Goal Post Streamers

www.flagandbanner.com/goal-post-streamers.asp

Any Way the Wind Blows

Give your athletes a little home team advantage. Know the direction of the wind with our goal post streamers made for collegiate and professional sports. Simply attach the grommited end to the top of the goal post uprights using the included zip ties. We offer our goal post streamers in 200-denier nylon or 2-ply polyester. They come in size-specific 40x4 inches and available in a wide variety of colors.

Breakaway Banners

Who doesn't love to run through these? Answer: anyone over 25. No seriously, every team should have one to start the game. We make it affordable with these vinyl banners that have a Velcro seam so they are reusable all season long. The hardest part is keeping up with where you stored them from game to game. Each banner has pole hems on the side and grommets for versatility. See adjacent pictures for how to hold the different size banners. The bigger the banner, the harder to hold.
