Conceived in 1775 by Commodore Esek Hopkins of the Continental Navy, the flag was first used as a signal between ships to engage the enemy.

SKU:	Material	Size	Price
HFNAV35	Nylon	3 ft. x 5 ft.	\$48.73
HFNAV35C	Cotton	3 ft. x 5 ft.	\$47.90

Signal Flags

The system of international maritime signal flags are a way of sending messages to and from ships. The various flags represent alphabetic and numeric messages. Each flag has been made with quality nylon fabric. The colorful panels have been double stitched together. The flags are 6' wide x 10' to 15' high and are separated by 7' of cord with 36' ties at both ends.

The total length is over 40 feet and consists of a combination of 40 flags and pennants. **Pennants are recommended for nautical parties and decorative purposes only. They are not official sizes or colors.**

SKU: PENNS3604

Size: Pennants: 6 in. W x 10 in. to 15 in. H/String: 40 ft.

Material: Nylon

Price: \$52.90

Full Flag Kit with Canvas Headers and Grommets for on ship use are available!

Also available are full signal flag sets or individual flags for dressing ship or open ocean communication. These sets are official colors and official sizes. Sets range in size and price accordingly, please call 1.800.445.0653 for details. These are custom made to order and are made of sea worthy strong nylon.
