How to attach a crossbar

Needed: 1 CHOOK (this includes the eye)

1 CPOLE884W

2 CENDC1

Drill w/ drill bit

Attach the hook portion of the hook and eye about 4 ½" below the rim of the ornament mount.

Pre-drill pilot holes for the mounting screws and attach hook with screws provided.

Attach the eye portion to the middle of the cross bar in the same manner. Make sure that you locate the center of the bar before pre drilling the screw holes.

Attach the acorn end caps to the cross bar and attach the cross bar to the pole. The cross bar should hang level.
